

# Local Superclusters

The image is a map of the Local Superclusters, showing various clusters of galaxies in the universe. The map is a Mollweide projection with a grid of lines. The Virgo Supercluster is highlighted in red. Other labeled superclusters include Coma, Centaurus, Hydra, and many others.

# Observable Universe

A 3D visualization of the observable universe, depicted as a large cylinder filled with a dense field of stars. A small red bar in the center is labeled "Milky Way".

David C. Rodrigues | UFES
